2010 Haragan Lecture
Lynda Bonewald, Ph.D

“Challenging Dogma to Discover the Multifunctional Osteocyte”
FRIDAY, NOVEMBER 19TH, 6:00-7:00pm,
Biology Lecture Hall 100
Reception to follow the lecture in the Experimental Sciences Building
2nd Floor Lobby

Dr. Bonewald is the Interim Vice Chancellor for Research, Curators’ Professor, Lee M. and William Lefkowitz Professor, Director, UMKC-CEMT, and Director, Bone Biology Research Program in the UMKC School of Dentistry, Department of Oral Biology.

She performs research in the area of bone development and directs the Bone Biology Program. She is a member of the American Society for Bone and Mineral Research, the Association of Biomolecular Resource Facilities, and the International Bone and Mineral Society. Dr. Bonewald is also a member of the American Association for Dental Research, and the International Association for Dental Research.

The Bone Biology Program collaborates and integrates research goals with the Biomaterials and Engineering Components of the Department of Oral Biology.

This event is sponsored by the TTU/HHMI Science Education Program @ CISER and the President Donald R. Haragan Lecture Series Endowment, begun in 2001 in recognition of Dr. Haragan’s unparalleled, distinguished service to Texas Tech University.

Donors, please contact the Senior Development Officer, Arts & Sciences, at 806.742.3833
